Subject: [Launch 106307] gTrade: Project Bernanke

REMINDER - Launch date overdue.

Your role as woojink: PA Lead approver

Link: <https://ariane.googleplex.com/launch/106307>

Launch information:

Launch ID 106307
 Name **gTrade: Project Bernanke**
 Calendars Ads & Comm (Display): Display Ads - Ads Quality
 Ads & Comm (Display): Display Ads - GDN
 Launch Date **2013-10-16**
 Status **Current**
 Description Original Dynamic Revshare launch was designed to reduce GDN buy-side margin in AdX auctions from 14% down to potentially [REDACTED] to win more auctions. With this project, we are doing a little quantitative easing on the AdX, a la Bernanke: [REDACTED]
 [REDACTED]
 [REDACTED]
 [REDACTED].

It is the gTrade team's intention to balance the increases to top bid and decreases to second bid to average the GDN buy-side revshare to 14% over some time window for each publisher.

This is net-positive for GDN, GDN's advertisers, and publishers. GDN wins more auctions and generates more revenue at the same average 14% revshare; GDN's advertisers win more auctions and get greater click/conversion volume; and AdX publishers enjoy higher match rate and revenue.
